

Hello! I'm Omagor James Gideon.

I am a digital marketing expert with a **Bachelors degree in Environmental Science** from Makerere University with trainings and experience in **Graphic Design & Video Editing**. I have worked on a range of briefs including branding, web design, user interface design, magazine design, posters and banners, cover letters, reports, to mention but a few.

I have extensively invested time to hone skills in video editing and TV production. By working on a wide range of projects, both within my work placements and also on freelance basis for Companies and NGO's, it has helped me to gain a deeper understanding and application of each aspect that is needed for graphic design and video editing skills honed.

I have experience using the latest tools and softwares such as the **Adobe Creative Suit**. (Photoshop, Premiere Pro, Illustrator, Indesign, After Effects, Adobe Audition, etc).

I have improved the quality of my work over the years and gained working experience with a vast number of clients, individuals and organisations.

Kasse Career Consults – Kampala, Uganda
Document career consultative information
and conduct field surveys in secondary
schools.

MFGC Church App / A design Concept for a local church. The idea was custom designed by myself to help increase the church's community engagement and help members easily make inquiries or send in prayer requests to the administration. The lack of a unified platform made to contain native content for members was to be solved by this app.

Magazine Concept / A design Concept of the very first Issue of its kind. I came on board to design mockups and promo adverts of the issue . Assigned by one of the leading law firms in Uganda, i was able to execute the task and also record video interviews of the founding partners in regards to this project.

7 MARCH
